

Grade Crossing Safety Program Project Fact Sheet

Project : Grade Crossing Safety Program

Location: Throughout Chicago region

Scope of Work: Rehabilitation or reconstruction of grade crossings, as well as potential grade crossing closures.

Benefits: With over 1,500 crossings in the Chicago region there are numerous communities affected by freight and passenger rail traffic safety issues. For those locations where a grade separation was not included the CREATE Program or is not feasible, this program aims to assist with safety improvements benefiting communities.

Project Status: The Grade Crossing Safety Program is currently unfunded.

Project Locations: To be determined.
