

CREATE

KEEPING THE GO IN CHICAGO

WA4

BNSF Connection – Western Avenue to Ash Street

Location

From California Avenue to Western Avenue, and 21st Street to 35th Street

Chicago, IL

Daily Trains Affected

22 freight trains (Expected Usage)

Scope of Work

Construct new track from 31st and California Ave. on the BNSF Chillicothe Subdivision along Western Ave. to 21st St. and California on the BNSF Chicago Subdivision. Rehabilitate up to 6 bridges over city streets and over the Chicago Sanitary and Ship Canal. Install crossover switches between the BNSF Chillicothe Subdivision and the CN Freeport Subdivision. Install crossovers between the new track and CSX Blue Island Subdivision. Install Centralized Traffic Control signalization over the length of the project.

Benefits

Currently a direct connection does not exist between the BSNF Chicago and BNSF Chillicothe Subdivisions. This project will construct a new direct connection to allow movements between BNSF's Corwith and Cicero Yards, eliminating the safety and delay issues of long reverse moves that currently take place. This project will also build new connections from the CN Freeport Subdivision to the CREATE Western Avenue Corridor.

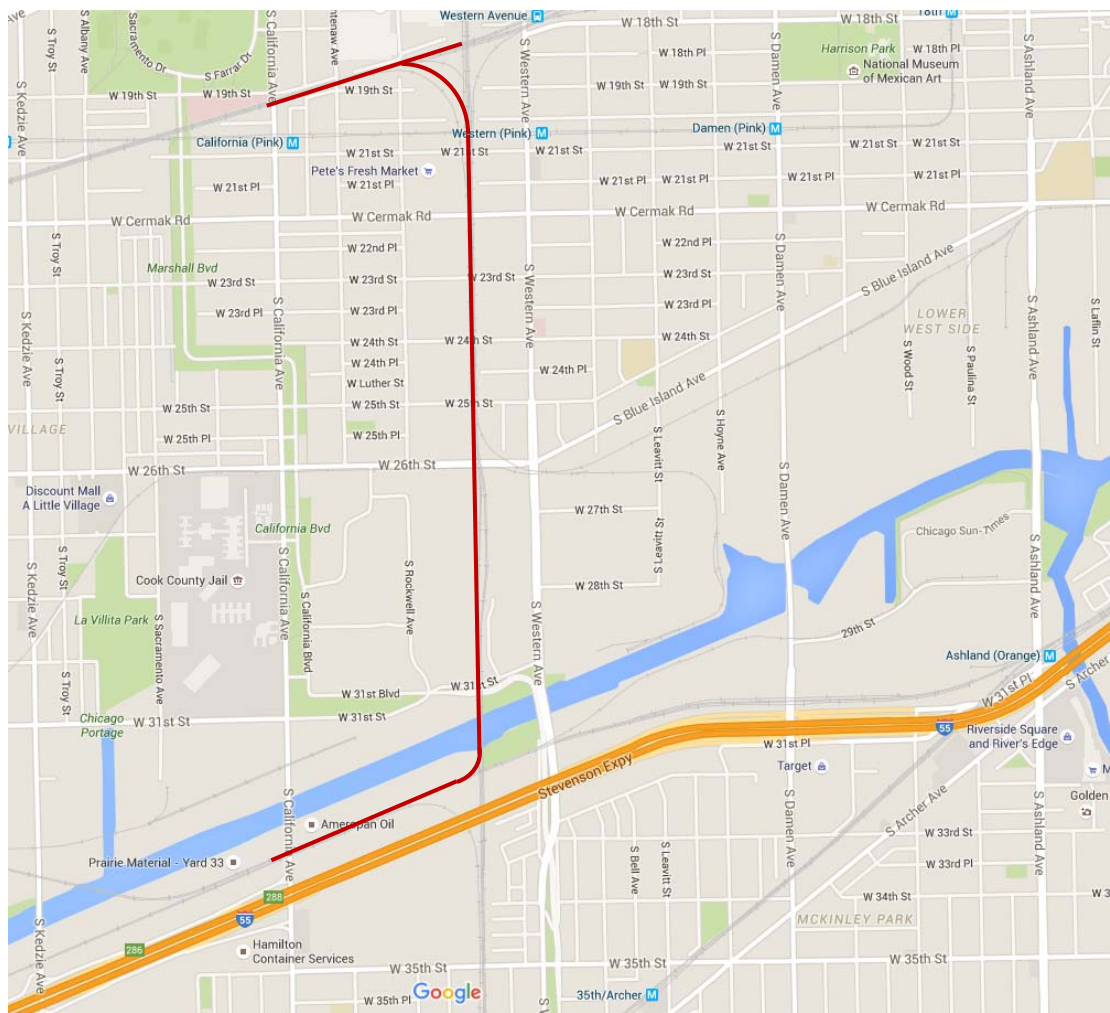

Communities Benefited:

- Chicago Community Areas: Douglas Park, South Lawndale, Little Village, and Brighton Park

Project Status

Phase I – NEPA – Preliminary Design (30% Design)	Phase II – Final Project Specifications and Estimates	Phase III - Construction
Complete	Complete	Underway
